**CONCEPT SURFACES PURCHASES SURFACE SOLUTIONS
Expands Market Share, Territory and Customer Base**

Concept Surfaces continues its strong growth. An exclusive importer of high quality hard surface materials ranging from large format porcelain tiles, porcelain mosaics and glass mosaic tiles. Concept Surfaces announces the purchase of Surface Solutions, a privately held firm home based out of Mississippi.

This is a big win for Concept Surfaces as this purchase grows their customer base, their product line and expands their footprint into the Gulf States including Arkansas, Mississippi, Alabama, Louisiana and Tennessee. Headquartered out of Dallas, Concept Surfaces already has representation across Texas, Missouri and Colorado.

Now, in its 11th year, Concept Surfaces is having an exceptional year and says the purchase of Surface Solutions will drive even higher annual sales and increase their market share.

The acquisition is also a big win for Surface Solutions clients who gain an expanded line of tile selections, a larger sales staff, a faster response for sample requests and a robust website with detailed search features. Concept Surfaces cordially welcomes its new customers and invites them to explore and review their website <http://conceptsurfaces.com>.

Concept Surfaces has always provided designers and architects an unparalleled selection of porcelain tiles, glass mosaics and hardwoods. And now by “teaming” up with the wonderful people of Surface Solutions, we are seeing growth in sales volume, markets, and employees,” says Geoffrey Gross, President and Founder of Concept Surfaces. But he adds, “most significantly, this expansion increases our scope in the two areas of paramount importance to me... innovation in our offerings and service to our customers.”

Innovation is our specialty. Service is our passion.

Concept Surface’s showroom is located at 2414 Converse, Dallas, Texas 75207.
