# Recipe:

A Malt is a milkshake made with the addition of malted milk powder. This gives the shake a bit of a toasty, rich taste that enhances a classic milkshake. It also creates a thicker consistency.

## Ingredients:

- ½ cup (4 fl oz/120 ml) whole milk
- 2 tablespoons malt powder
- 6 scoops (15 oz/425 g) vanilla ice cream
- Whipped cream, for garnish

## Instruction:

- In a blender, first add the milk, then the malt powder, followed by the ice cream.
- Blend on high speed until fully combined.
- Pour into a tall glass and top with whipped cream. Serve immediately with a straw.
